Part - IV - Recommendations

A. General Observations and suggestions

1. Management appears to be committed to develop the university and has all the financial resources to deliver.
2. Industry-academic interface and placement cell should be developed. Some visiting faculty should come from industry and academia.
3. More senior faculty needs to be appointed with adequate compensation.
4. In recruitment policy, emphasis should be laid on hiring faculty whose spouses could be also provided jobs. This will help them to retain the faculty.
5. To attract and retain good quality faculty and support staff, the university may consider affirmative action for promotion of girls education including providing free education to daughters of employees (teachers and support staff) of the university in the primary and secondary schools owned by the management including Abhilashi University. Currently only part fees are waived. They may also consider to provide at least 50% fee concession for sons and 100% fee concession for daughters for of the employees.
6. The quality improvement programme (QIP) should be implemented by the University whereby at least 1 or 2 members of faculty from each department are sent for Ph D degrees in elite institutes/universities on 3 years leave with full pay. The university may sign a bond with the employee so that he or she comes back.
7. The university should recruit senior/superannuated professors from other institutes/universities from abroad or within India on short term basis to teach a course/s in specific areas with attractive pay packages.
8. To overcome the locational disadvantage, the University should consider family as a unit in recruitment of faculty and support staff to protect and promote the interests of each member of the family. The University should take proactive steps to recruit young faculty by providing attractive pay package which include start up grant for research, housing and assurance of job for the spouse, and education of children.
9. There is a need to reward or incentivize performing teachers and employees. The rating should be based on student evaluation and also on their publications/patents.
10. The salary should be adequately revised in consonance with the government/UGC approved structure.
11. All support staff employees should be provided with computers so that their efficiency increases for the benefit of both the employees and the university.
12. Wifi facility with better band width should be available on the campus.
13. Adequate number of fire fighting equipment should be installed in all buildings on each floor.
