**“ We should indulge in God  
remembrance every moment. ”**

**We** should always remember the formless God. We must never forget the presence of formless God. It is generally said that God remembrance is not mere recitation. Yes, that's true and we don't have to indulge in recitation. But we must feel his presence every moment. We are not bound by any particular time or place for God remembrance. But like when our mobile phones do not get any signals, we use land line phones to make a call, similarly, if one feels that he/she is lacking in '**Sumiran**' then one should sit with family members for '**Sumiran**'. Don't think that you were not told that earlier. In fact, it was not told but one should remain consciously aware about paying attention to '**Sumiran**' in any way so that our faith should remain firm and unwavering. God remembrance leads to large heartedness as well as broad-mindedness that saves us from unnecessary complications. '**Sumiran**' opens the door to progress.

# ABHILASHI UNIVERSITY - AN INTRODUCTION

---

Abhilashi University at Chail Chowk, Mandi is established by the Government of Himachal Pradesh vide “Abhilashi University (Establishment & Regulation) Act, 2014”. Abhilashi University is a Government recognized University with a right to confer degrees under Section 2(f) and 22(i) of UGC Act, 1956. The campus of the University is located at Chail Chowk near Mandi (H.P.) and surrounded by lush green fields, pine and oak forests thus becomes an ideal place for study in a clean health-oriented environment. The aforesaid was the forethought of the Abhilashi Educational Society selecting such a beautiful location for the University. There are a number of places worth visiting nearby the University such as Nachan Valley, Jeeuni Valley, Janjehli Valley, Balh Valley, Sunder Nagar and Mandi towns. One can also enjoy snowfall once a while during the winter season. The fresh and pollution free air of this region keeps the minds of the students fresh and help them to concentrate on their studies.

The parent body of the University, Abhilashi Educational Society, is a pioneer in managing private educational institutions in the state of Himachal Pradesh. The foundation stone of the Society was laid by Late Sh. Tulsi Ram Abhilashi Ji on May 21, 2001.

The students and their parents have put faith in the quality education imparted by efficient and dedicated faculty of the institutions managed by Abhilashi Educational Society for the last 21 years. The Society is presently running many Educational Institutions of professional and technical education in the region. It includes: Abhilashi College of Education at Nerchowk, Mandi established in 2003 and running D.El.Ed and B.Ed courses; Abhilashi College of Pharmacy, Nerchowk, Tehsil Balh, Distt. Mandi from 2006 admitting students for B. Pharmacy Degree Programme; Abhilashi P.G. Institute of Sciences at Nerchowk, Tehsil Balh, Distt. Mandi offering M.Sc. Courses in Physics, Chemistry and Botany; T.R. Abhilashi Memorial Institute of Engineering and Technology (TRAMIET) at Tanda, P.O. Balt established in 2009 imparting education in the B. Tech. and Diploma programmes in different disciplines of engineering and technology; Abhilashi College of Nursing at Tanda, P.O. Balt, Distt Mandi running B.Sc. Nursing, GNM, ANM and Post-Basic B.Sc. Nursing courses. For to the medical assistance of people of Chail Chowk and surrounding areas, Abhilashi Hospital came in to operation at Chail Chowk in October, 2020. Besides, two Senior Secondary Schools—Genius International Public School at Nerchowk and Chail Public School at Chail Chowk are being managed by the Society.

## Vision

---

Excellence in professional and technical education through dedicated and innovative research.

## Our Mission

---

- To provide environment for achieving excellence in education.
- To create and generate conditions for quality education.
- To impart quality education through value-based & industry-based curriculum.
- To strengthen in humanistic, social and moral values.
- To plant education and qualities of leadership in minds of students for future development of the nation.

# FROM THE DESK OF CHANCELLOR

Education is the driving force for imparting effective change in a person, community, society and the nation. It breaks the barriers of caste, creed, ethnicity and religion by training the minds to think logically, to cultivate, innovate and discover methods for creating a harmonious and sustainable society with skills, positive mindset, knowledge and high values of life. Education being so important in one's life, therefore, the mission of the Abhilashi University is **“To provide environment for achieving excellence in education through leadership-based, value-based and industry-based curriculum for the overall development of the minds of students for the future development of the nation in turn”**.

For any university, the structure of excellence lies in the transitional ability of its faculty and facilities. In our attempt to be the best and preferred source of learning, Abhilashi University has emerged as a temple of learning that focuses on empowering the society we live in, with competent and responsible professionals. A salubrious campus, the latest in technology, the best of curriculum and the expertise of academic stalwarts and industry doyens define the contours of Abhilashi University.

The academicians of Abhilashi University have designed the curriculum and follow the pedagogy which makes the students to understand the contents with the difference as they practice the art of teaching with a student centric approach. The excellent infrastructure at the University, both educational and extra-curricular, magnificently demonstrate the importance of ambience in facilitating focused learning for our students.

The Abhilashi University is one of the leading Universities of North India which has been successfully approved in its 1<sup>st</sup> inspection done by the inspection committee of the University Grants Commission, New Delhi within two years of its inception. Apart from the approval of University Grants Commission, New Delhi under section 2(f) and section 22 (i) of UGC Act 1956, the University has the approval of Central Council of Indian Medicine/AYUSH, Pharmacy Council of India, Bar Council of India, Himachal Pradesh Para Veterinary Council, Indian Association of Physiotherapists and is a member of AIU (Association of Indian Universities).

It is my pleasure to extend my warm welcome to all the prospective and aspiring students of Abhilashi University and other institutions of Abhilashi Group and I honestly assure them that they will shine in their career, will beat the crowd of this competitive world and realise their cherished mission after completing their education from our University and other Institutions of higher learning of Abhilashi Group.

**Dr. R. K. Abhilashi**

# FROM THE DESK OF PRO-CHANCELLOR

The fast changing world of tomorrow will be an exciting and a challenging place to live, where only those who will adopt themselves to the situation, keep pace with the upcoming technologies and ready to take the ability to align their ideas, thoughts and way of working to the changing situation will only survive. At Abhilashi University we recognize this need of time and so prepare the students for the challenges of the 21<sup>st</sup> century and provide them an atmosphere which will encourage them to become lifelong learners and skilled enough to work in multicultural, ever changing society.

As education and knowledge are of paramount significance for the different sections of the society, therefore, the Abhilashi Educational Society has developed a hub of educational institutions in and around the Ner Chowk town of Mandi District (HP). Majority of the institutions are situated in the rural areas so that the students can get a serene, calm, pollution free academic environment for concentrating in their studies, innovations and to become an asset to the society. The other reason for establishing and developing the educational institutions in the rural area, is the pious mission of the Abhilashi Educational Society to improve the quality of life of the rural people by education, employment and to provide them an opportunity to improve their financial conditions by opening hostels, paying guest houses, grocery shops, tea shops and other possible means of livelihood at their thresholds.

The vision of Abhilashi University is “Excellence in professional and technical education through dedication and innovative research”. Thus to achieve this mission, the University has adopted a very high standard of learning which gets reflected through the recognition of the University by the University Grants Commission inspection committee and AICTE expert committee and the ratification of the same by the UGC within a period of two years of the establishment of the University. Further, the standard of the University has also been applauded by the other bodies such as PCI, BCI, CCIM and HP State Para Veterinary Council.

It is my pleasure to extend my warm welcome to all the prospective and aspiring students of Abhilashi University and other institutions of Abhilashi Group and I honestly assure them that they shall shine in their career and will be able to beat the crowd of this competitive world.

**Dr. L. K. Abhilashi**

# FROM THE DESK OF VICE-CHANCELLOR

Welcome to Abhilashi University at Chail-Chowk, District Mandi, Himachal Pradesh, a venture in higher education by Abhilashi Education Society. Situated in a serene environment surrounded by Gohar and Balh valleys and nature's paradise of green lush fields, oak and pine forests make Abhilashi University an ideal institution to associate with. Abhilashi University is an institution which rears its students in their mission of literacy and education. University means centre of higher education. It nurtures the individual's ability to interpret, to distinguish between right and wrong, to

enhance the appetite for curiosity and to discover the answer to hidden unsolved problems. Education is manifestation of perfection already present in man. The main focus in learning should be to make the hidden ability of learner manifest. As Vivekananda said, what a man 'learns' is really what he 'discovers', by taking cover off the human soul, which is a mine of infinite knowledge. According to Vedanta philosophy, knowledge is inherent in human being, like a spark in a piece of flint and all that is needed is the strike of suggestion to bring it out. Real education is that which enables one to stand on one's own legs. Education must be considered as a continuous and lifelong process. Teachers and designers of education system must always keep in mind the Vedanta idea that whatsoever good or bad impressions a mind carries, a human being is essentially pure and divine and repository of immense possibilities. Everyone should get equal opportunity to learn and grow irrespective of one's financial abilities. Discovery is the main focus of universities. Universities are to solve the unsolved issues, to answer the unanswered questions, to encourage the innovative and imaginative ideas, to nurture a state of mind that is flexible and alert and to educate the individuals about modesty and humanity. Abhilashi University is synonym with this.

We at Abhilashi University educate our students and prepare them for a life time of responsibility with dedication through creation of knowledge by learned and efficient faculty, well equipped laboratories and library. Abhilashi University is established with a vision to make quality higher education within reach to aspiring technocrats and to disseminate knowledge to them in their ability to be job providers instead of job seekers. I assure the young minds joining Abhilashi University that you will certainly achieve satisfaction in your academic pursuits to attain future endeavours. Academic environment is imperative to education of naïve technocrats to excel in their skills and Abhilashi University is a lighthouse, well-equipped to impart versatile training in disciplines to ensure maximum on-campus placements of its graduates. My best wishes to students and parents who are associated with Abhilashi University.

# FROM THE DESK OF REGISTRAR

“Some where, something incredible is waiting to be known.”- Carl Sagan.

I came across this amazing quote quite suddenly when I was looking for some information in the internet and realized how relevant it is for all of us: children, parents and teachers. There is never any point in the life of a person when he can sit back and say, "There is nothing more to learn, I can relax with the comforting thought that the universe around me is an open book. I know it all. Education is not just about the subjects that are learnt and taught in educational institutions. Becoming educated is not restricted to being initially in school and then in college, gathering certificates and feeling proud of oneself. It is a lifelong exercise that can be unbelievably exciting if only we wish to jump onto the train of experience and take a trip to every conceivable place on the earth. Now we know that this cannot be done literally, so how do we manage it, first in school/college life and then as we go on through life's journey.

First, we all have to be on the same page, children, teachers and parents have to understand that education is not restricted to lessons taught in the class room from textbooks.

I welcome you to Abhilashi University, an institution where we help you to shape your future and help you in achieving the destination of life which you want to achieve. Abhilashi University has 5 Faculties and 13 Schools conferring degrees and diplomas in 42 different courses. I assure you that at Abhilashi University we will not leave any stone unturned in making your dream come true. At last I will like to add a few words of Albert Einstein-

“Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand.”

## School of Health Science

The B.Sc. Medical Laboratory Technology course is aimed at training students in the laboratory aspects of medical care with a good scientific foundation. These students will be in a position to competently assist in Biochemistry, Pathology, Microbiology Laboratories and Blood Bank in all types of health care delivery systems. Along with the basic knowledge and advanced training in latest technologies in laboratories and blood bank, these graduates will play an important role in determining the quality of health care provided.

School of Health Sciences has laboratories for various subject specialties like Anatomy, Physiology, Biochemistry and Pathology to help the students to develop psychomotor skills which are very essential for the effective practice of Paramedical Sciences. It has best labs. which provide excellent hands on training along with innovative modern clinical skills lab. where students are trained on various physical skills related to various organ systems, preparing them for real patient encounters. Fully automated, advanced instruments are monitored by strict quality control and quality assurance to conduct tests.

The laboratory specialist can get excellent job opportunities in modern Multi Specialty Hospital in I private and government sectors.

### Bachelor of Science (Medical Laboratory Technology)

## School of Agriculture

**Prof. D.R. Thakur**

Dean, Agriculture

Dr. D. R. Thakur has served many institutions but the main institution was CSKHPKV, Palampur (H.P) where he has served more than 27 years and superannuated from the post of Principal scientist sum Head, Department of Agricultural Economics, Extension Education and Rural Sociology. During his tenure of service, he has gained wide experience in teaching, research, extension and administration in the field of agriculture. Dr. Thakur has published one book and more than 100 research and popular articles in reputed national and international journals, guided 5 P.G students and completed 26 research projects on various aspects of agricultural economics. Since 1st January 2021, he has been serving as a Dean, Faculty of School of Agriculture, Abhilashi University, ChailChowk (Mandi) H.P.

Agriculture plays an important role in the life of mankind from early civilization. It was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that nurtured the development of civilization. It gained modernization with the passage of time. Modern agricultural practices are increasingly turning out to be knowledge-based and hence gaining expertise in them is exceedingly important. Industrial agriculture based on large-scale monoculture farming has now become the dominant agricultural methodology. School of Agriculture established in 2014 offers Undergraduate, Post-graduate & Doctoral programmes in Agriculture. After going through common and elective courses in Agriculture during the degree programme, we have in the undergraduate course curriculum, an exposure of the students in complete rural settings where the students will go and live along with farm families in the villages and have the first-hand experience of their living, agricultural practices, difficulties and expectations. Students will be attached to an agriculture-based industry to acquaint themselves with post-harvest processing of agriculture produce and link agriculture production with industry. The student shall also be registered for opting for two modules for skill development and entrepreneurship. The school has highly qualified teachers, well-equipped laboratories, classrooms and well laid out terraced student's farm representing typical hilly terrain. Occasional snowfall during the winter adds to the beauty of the university campus and places it at a location that is marginal to temperate as well as sub-tropical agro climatic conditions, thus enabling teaching and research under both the situations.

Along with different agricultural practices, students were also made familiar with some important experimentations like 1- collection and preservation of soil samples, 2- preparation of vermicompost units in a university farm field and bioformulations of Zero Budget Natural Farming Like Beejamrit, Ghanjeevamrit, Agniaster, Bhramaster, Neemaster).

## School of Forestry

Bachelor of Science in Forestry is a four-year undergraduate program that is divided into eight equal semesters. It provides students with the knowledge and training about Forestry. Forestry program trains students in the managing of forests, new plantation, maintaining old plantations and other natural resources.

### Aims and Objectives:-

1. Our Vision is to provide world class, nationally recognized knowledge and leadership for forestry issues.
2. The main aim of forestry studies is the creation and implementation of systems and framework for the sustainable continuation of forest resources and supplies.
3. To make sure that the non-renewable sources do not get extinct.
4. During the program, students are offered theoretical and practical knowledge regarding forestry and other related fields.

Forestry professionals have various duties to perform such as managing forest resources, conserving forest and forest supplies, generating awareness and implementing new technology in the forestry department. Candidates who are keen to take up a career in forestry must have a spirit of adventure, enthusiasm for outdoor activities, physical fitness and should be adaptable to the new surroundings. They should also have a keen interest in global concerns and how to preserve the environment.

## School of Veterinary Sciences

The School of Veterinary Science of Abhilashi University was established in 2016. This school is dedicated to provide better learning facilities to the students, to give better professionals and to serve the society. The school of Veterinary Science has well furnished classrooms and tutorial rooms equipped with teaching tools for the effective delivery of lectures and tutorials as per the requirements. Library, livestock handling laboratory, practical pharmacy, diagnostic and surgical tools and instruments laboratories as per the educational program requirements and norms of statutory bodies are available in the school.

A Livestock Farm having different kinds of animals like cattle, sheep, goat, etc. managed by the School of Veterinary Science gives an opportunity to learn the handling and management of healthy animals and treatment of ailing livestock brought for treatment and milch livestock from farm as well as from the adjoining areas.

**Course:** 2 Years Veterinary Pharmacist Training Course

**Duration:** 2 Years

**Seats:** 100

**Eligibility:** Candidates having passed 10+2/equivalent examination in any stream conducted by recognized education board/university/ council with 60% marks (55% for SC/ST).

# Faculty of Pharmacy

Prof. (Dr.) Amit Chaudhary, Dean Faculty of Pharmacy, Abhilashi University is actively involved in teaching and administration. He has published various research papers in reputed national & international journals.

**Prof.(Dr.) Amit Chaudhary**  
Dean, School of Pharmacy

He has many years of exposure in research & development. He gives an enormous weight-age to both theoretical & practical aspect of teaching courses as stipulated in the curriculum of D.Pharm, B.Pharm, M.Pharm and Ph.D. programmes.

The school of pharmacy started in 2014 with Bachelor of Pharmacy course is now turning out high quality D.Pharmacy, B.Pharmacy, M.Pharmacy and Ph.D. students. The school of pharmacy has dedicated, highly qualified, experienced and efficient faculty to guide students and to impart quality education through excellent Laboratories with State-of-art equipment and machinery as per the norms of PCI and UGC. The quality processes have been highly appreciated by various regulatory bodies including the Pharmacy Council of India (PCI) and UGC.

In a short span, our campus has made significant progress in the field of technical education, research and development. This has been achieved by outstanding student participation in various activities ably supported by highly qualified and motivated faculty, a world-class infrastructure and virtual learning system - Blackboard available at the campus, 24 X 7 access to e-library and scientific wealth through Wifi. Residential campus gives us flexibility to groom disciplined future professionals, nurturing their life values and hidden talents and strengthening their inherent good qualities. Soft skills & communication skills are the integral parts of the curriculum. We believe in the holistic development of our students.

## Diploma in Pharmacy (Allopathy)

**Duration:** 2 years. **Seats:** 60

**Eligibility:** Candidates having passed (10+2) with science examination/equivalent examination conducted by the recognized education Board/University. The eligible candidate should fulfil the minimum entry level qualifications prescribed by PCI or any other qualification approved by the PCI.

## Bachelor of Pharmacy, B.Pharm.

**Duration:** 4 Years **Seats:** 60

**Eligibility:** Admission will be made on the merit of HPCET or 45% in 10+2 (Science) for Gen. and 40% in 10+2 (Science) for SC/ST.

**Lateral Entry:** Passed Diploma in Pharmacy (Allopathy) examination from PCI approved institution with 45% marks for General and 40% for SC/ST category candidates.

## Master in Pharmacy (Pharmaceutics, Pharmaceutical Chemistry & Pharmacognosy)

**Duration:** 2 years (4 semesters).

**Seats:** Pharmaceutics 06, Pharmaceutical Chemistry 09, Pharmacognosy 15

**Eligibility:** The admission to M Pharmacy degree course shall be made on the basis of merit of valid GPAT score. In case the seats remain vacant after exhausting the merit of GPAT, the vacant seats will be filled up on the basis of merit of HPCET. ## Faculty of Engineering and Management

**Dr. Devender Sharma**  
Dean, Faculty of Engineering and Management

The Faculty of Engineering and Management is all set to bring out the underlying talent within each student and provide proper guidance so that their potentials can not only be utilized to make them future engineers capable of meeting any challenge in the future, but also to uncover their undiscovered skills. The University provides unrelenting support and resources to all its student members to improve their communication skills, critical thinking abilities, moral values and sense of responsibility.

Real education should aim at developing the goodness and the best out of our students. What better book can there be than the book of humanity. Incessant efforts are made to improve the creativity and problem-solving abilities of the students so that they can contribute their best to the society and the country.

### School of Engineering

School of Engineering was established in 2014 with the objective to provide high quality education in major engineering disciplines from undergraduate to post-graduate levels through a creative balance of academic, professional, and extracurricular programmes. The mission of the School of Engineering is to make the graduates morally conscious and highly competent engineers, conduct internationally recognized research and provide quality professional and community services. The School of Engineering has well-qualified and committed faculty members and supporting staff and modern infrastructure in the form of elegant and smart classrooms, spacious laboratories, latest machinery and equipment. Students are encouraged to participate in co-curricular and extracurricular activities to acquire leadership qualities. The department emphasizes on modern laboratories to cater to the needs of academic and research activities. They are well equipped with computational facilities and resources both in terms of hardware and software.
